

CAREER OBJECTIVE

Results-driven Java Developer with hands-on experience in full-stack development, API integration, and Agile project management. Seeking to leverage expertise in Java technologies, web development, and secure authentication to drive innovative solutions and contribute to the growth and success of a forward-thinking organization.

EXPERIENCE

- February 2024 - Present | Config Server LLP
Software Developer
 - Designed and implemented enterprise-level Java applications, including backend services for a Digital Payment Platform and the Crime Diary project, leveraging Core Java, Spring MVC, and Hibernate
 - Collaborated in full-stack development to design responsive user interfaces using HTML, CSS, and JavaScript, and optimized communication gateways to enhance user interaction.
 - Designed RESTful APIs to support application features, ensuring scalability and optimal performance.
 - Utilized Agile methodologies and project management tools like JIRA for efficient sprint planning and delivery.
- February 2023 - June 2023 | Magic EdTech
Software Trainee
 - Acquired hands-on experience in Java application development, mastering technologies such as Core Java, Spring MVC, Spring Boot, Hibernate, Maven, APIs, Servlets, and JSP.
 - Contributed to end-to-end project development, gaining proficiency in diverse Java concepts and software development methodologies.

PROJECTS

- Banking Project
 - Role:** Backend Java Developer
 - Technologies:** Java, J2EE, Spring Boot, Servlet, JSP, Spring Security, MS SQL, Git, Bitbucket, HTML, CSS, JavaScript
 - Key Responsibilities:**
 - Designed and developed banking services leveraging legacy Java code (Core Java, Servlets, JSP) and optimized database performance by creating and maintaining tables, views, and stored procedures.
 - Collaborated with cross-functional teams to integrate backend services seamlessly with front-end technologies, ensuring adherence to security standards.
- Crime Diary
 - Role:** Project Lead, Backend Java Developer, Frontend ReactJS Developer
 - Technologies:** Java, J2EE, Spring Boot, Spring Data JPA, MySQL, Hibernate, Spring Security, Keycloak, ReactJS, Amazon S3, JIRA, Git, Bitbucket
 - Key Responsibilities:**
 - Designed scalable backend architecture to support feature-rich functionality and reduced paperwork for police operations.
 - Integrated Keycloak for user management and authentication, and Amazon S3 for resource storage. Led a team of 5 developers using agile methodologies.
- Digital Payment Platform
 - Role:** Backend Developer
 - Technologies:** Java, Spring Boot, Spring Data JPA, Spring Cloud Gateway, Hibernate, Spring Security, Keycloak, Micro-Services, Swagger, Git, GitHub, PostgreSQL
 - Key Responsibilities:**
 - Optimized communication channels by implementing multi-channel integration and secure authentication through Keycloak.
 - Conducted R&D to design enhancements for risk management using the Marble AML Tool and implemented Swagger for comprehensive API documentation.

EDUCATION

2019 - 2023 | Ajay Kumar Garg Engineering College, Ghaziabad
Bachelor of Engineering (B.E./B.Tech) in Information Technology
CGPA : 8.15

CERTIFICATIONS

October 2023 - March 2024 | Profound EduTech
Advance Diploma in Full Stack Java Development
Grade: A+

SKILLS

- Software Development
- API Design & Integration
- Database Management
- Web Security & Authentication
- Version Control (Git, Bitbucket)
- Agile Project Management
- Code Review & Quality Assurance
- Debugging & Troubleshooting
- Cross-functional Team Collaboration

TECHNOLOGIES

Java, J2EE, Spring MVC, Servlet, JSP, Spring Boot, Spring Data JPA, Spring Security, Hibernate, Spring Cloud Gateway, Swagger, Micro-Services MySQL, PostgreSQL, MongoDB, HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, jQuery, AJAX, ReactJS, Node.js, PHP, Git, AWS S3, Keycloak,

INTERESTS

- Engaging in sports such as cricket and football
- Enjoy cooking
- Exploring interests in travel and cultural experiences
